

Dear Barlow C of E Primary School

Thank you to all the pupils, their families and staff for raising £58 in support of Myeloma UK by organising a non-uniform day. The dedication and hard work that made this happen is much appreciated.

I would love to send you out a thank you letter and certificate for you to display in the school, but due to the COVID-19 outbreak the Myeloma UK office is closed and we are unable to send out any post until further notice. I apologise for any inconvenience this causes.

Your support means that patients and families have someone to guide them through the maze of medical terminology and treatment procedures from the moment myeloma becomes part of their lives, providing clear information and emotional support all year round.

One of our key aims is to ensure patients receive the right treatment at the right time. Our new collaborative research programme acts as a catalyst to develop more innovative early phase trials to improve treatment options at every stage of myeloma. You are helping to support this research and our work with healthcare professionals, pharmaceutical companies and key policy makers to promote early diagnosis, and strengthen the treatment pipeline so that patients have access to the next treatment when they need it.

As a charity, Myeloma UK relies on voluntary donations and fundraising, and every step we take progressing treatment and care is thanks to supporters like you.

Thank you again for helping us make myeloma history.

Best wishes
Georgie
